- There will be three rolling phases of four weeks each.
- This approach is critical to ensure that we don't overwhelm the Shipyard's resources.
- It will also allow the logistics team the time necessary to ensure appropriate berthing and messing for the sailors.
- Skill sets will be balanced per phase with a higher percentage of Journeymen in phase I to ensure seasoned personnel are on the ground first.

# ***Sourcing Management***

- **Sourcing coordination with SurgeMain OSOs**
  - Customer is the Supplier
- **Pre-vetted all SurgeMain UICs (~2,200 members)**
- **Standard vetting rules, e.g. no waived MAS codes**
- **Incorporating USFF and IA Portal for sourcing management**
  - Prevents errors due to IA Portal design
  - Better tool for mission management
  - Utilizing Mass Mob batch fill tool
- **Single CNRFC UIC for virtual gains**
  - Reduces time to write orders by standardizing orders for all missions
- **Phase 1 >95% filled, R## today, working on Phases 2 & 3**
- **Fallout Management**
  - Expecting lower numbers initially that will ramp up in later Phases (more non-vols)

# Pre-mobilization Screening/Sourcing

## NAVSEA BSO

- Identify qualified personnel to fill each requirement
- Coordinate Dwell/Deferment waivers or Page 13s

## USFF

- Coordinate requirement details w/ SurgeMain
- Create lines in IA Portal

## CNRFC

- Screen members submitted by BSO
- Request replacements
- Fill lines with vetted members

## USFF

- Additional vetting of nominees
- Prepare SDOB/ASN matrix for individual SVM approval

## PERS

- Generate **NMCMPS** orders with LOAs

\*Changes implemented from BUMED Lessons Learned, reverting back to standard practices to prevent errors
